

Prof. Dr. Dr. h.c. Peter Kleinebudde

Peter Kleinebudde is pharmacist and finished his dissertation at the University Kiel in 1987. He then spent some years at Glaxo GmbH, Germany, in Pharmaceutical Development and Bulk Production. Between 1991 and 1997 he worked as research scientist at the University Kiel and received the German ‘Habilitation’ about work on pellets. During a stay at the Royal Danish School of Pharmacy he was appointed as associate professor at the University Halle-Wittenberg in 1998. From 2002 to 2003 he was dean of the School of Pharmacy. Since 2003 he is full professor for Pharmaceutical Technology and Biopharmaceutics at the Heinrich-Heine-University Duesseldorf. Since 2019 he is dean of the Faculty of Mathematics and Natural Sciences.

Peter is a member of several scientific societies including AAPS, APV, DPhG, Dechema and VDI. He was president of the International Association for Pharmaceutical Technology (APV) from 2002 to 2010 and chair of the APV focus group Solid Dosage Forms from 2010 to 2016. He is a member of the editorial boards of Eur J Pharm Biopharm, J Pharm Sci, Int J Pharm, AAPS PharmSciTech, Pharm Dev Tech and Acta Pharm Hung. In 2004 he was designated as AAPS Fellow. In 2013 he received a Dr. Honoris Causa degree from the University of Szeged (Hungary). He was a member of the German Pharmacopoeia Commission and chair of the expert group Pharmaceutical Technology.

His main research interests are solid dosage forms, pharmaceutical processes like roll compaction/ dry granulation, extrusion and coating and continuous manufacturing. He has published more than 280 peer-reviewed papers, 500 abstracts and conference proceedings and has given more than 250 invited lectures. 63 PhD students graduated under his supervision.
